(Choice Based Credit System and Learning Outcome Based System
with effect from academic year 2023-2024)**

1. Preamble

*vidyā dadāti vinayam vinayād yāti pātratām|
pātratvāddhanamāpnoti dhanāddharmam tataḥ sukham||*

This shloka indicates, knowledge gives humility, from humility, one attains character; from character, one acquires wealth; from wealth, good deeds (righteousness) follow and then happiness.

In continuation of academic autonomy, we revise the TYBA Syllabi as a result of learning outcomes-based education. The subject of Philosophy will help its learners to absorb the essence of critical thinking, problem solving and decision making.

Philosophy is one of the oldest disciplines in the world and its origin can be traced back in all the historical civilizations. It is the study of existence, knowledge, values, reason, consciousness, and language. Moreover, it is the academic exploration of life's big questions. Its multidisciplinary approach can be applied to any field or subject. In India, Philosophy is popularly referred to as Tattvajnana and is called as Darshana Shastra. It analyses the canonical texts, works of sages, acharyas & erudite scholars are studied and read today. Philosophy has significant impact on many areas of life and professions including the arts, science, history, politics, development & sustainability study, business & financial management, data science, technology, and artificial intelligence in the recent times.

Through a collective effort of the members of Board of Studies in Philosophy at SIES College, Sion (West) both within and from outside the institution whose expertise was so valuable in conceptualizing the syllabus about these features. This syllabus shall help learners to sustain their interest in the subject, that could be a beginning in the career of some willing to emerge as independent thinkers.

The aim of the course is to prepare the learners personally and professionally with the skills of rigorous analysis, sound argument and self-directed thinking to communicate complex ideas intelligently.
